

About the NWTC Foundation....

The Northwest Technology Center Foundation was founded in 1991 by several friends of Career and Technology Education. All contributions to the Foundation are tax deductible. Student scholarships, teacher grants and leadership development activities are supported by Foundation funds.

“The scholarship that I received from the Foundation really helped me to pay for my books and transportation. I was honored to receive the award.”

How Can I Get Involved In the Northwest Technology Center Foundation?

The Northwest Technology Center Foundation invites all students, former students, parents, staff and friends to be involved in its activities. An individual may choose to do a lifetime membership of \$250.00 or an annual membership of \$25.00. Corporate partners may choose to do a lifetime membership of \$1000.00 or an annual membership of \$100.00. Scholarships may be endowed and named for a minimum donation of \$2500.00. Members in good standing are allowed to vote at the Foundation's annual meeting and are offered the opportunity to hold office on the Board of Trustees, if elected by the membership. All members of the Foundation are encouraged to participate in its annual golf tournament and to serve on various committees which support Foundation activities. The Foundation uses donations and dues to support leadership development activities, provide scholarships and to provide a source of income for school activities which are not in the scope of the institution's general fund.

What Activities Does The Foundation Support?

Leadership Development

The Northwest Technology Center

Foundation

supports

students to

become future

leaders.

Student Scholarships

Each year a portion of the funds raised by the Foundation will go to support scholarships for deserving students. This financial assistance may include books, tuition and other educational costs. The Foundation Scholarship committee assists in the establishment
